

PRAMOD DAS

Full-Stack Software Engineer | React.js & Node.js Developer
Goa, India | +91 8767049312 | daspramod479@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2+ years of professional experience building and shipping production web and mobile applications. Skilled in designing performant REST APIs, responsive UI/UX, and scalable database architectures using React.js, Node.js, and modern JavaScript/TypeScript tooling. Delivered 30+ business websites and 5+ full-stack applications across React Native, Express.js, MongoDB, and PostgreSQL. Strong problem-solving foundation with a focus on performance optimization, clean architecture, and user-centered product design.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Python, C, C++
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Mobile: React Native, Expo, Flutter
Database: PostgreSQL, MongoDB, MySQL, Firebase, Prisma ORM
CMS: WordPress
Cloud & Deployment: Render, Hostinger, Cloudinary, Docker
Testing: React Testing Library
Tools: Git, GitHub, VS Code, Postman, Figma, npm, Android Studio
AI Development Tools: ChatGPT, GitHub Copilot, Claude, Gemini
Development Practices: Agile/Scrum, RESTful API Design, Version Control, SEO, Performance Optimization

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Cosmic Solutions, Goa, India

Jun 2025 – Present

- Designed, developed, and deployed 30+ responsive business websites across hospitality, finance, education, and service industries using WordPress, HTML5, and CSS3, improving SEO performance and reducing page-load times by 30-40%.
- Built and shipped 5+ full-stack production applications using React.js, Node.js, and Express.js, architecting REST APIs and integrating MySQL/MongoDB databases to support real-time business workflows.
- Implemented JWT authentication and role-based access control across full-stack applications to secure user data and streamline permissions management.
- Designed responsive, user-centered interfaces in Figma and translated designs into production-ready UI, improving usability and engagement.
- Managed version control and collaborative development workflows using Git and GitHub, following Agile practices across cross-functional teams.

Web Development Intern — Deviant Strokes, Margao, Goa

Aug 2024 – Oct 2024

- Developed client-facing websites using HTML, CSS, and JavaScript within a collaborative development environment.
- Debugged frontend and backend issues, improving site performance and cross-browser compatibility.
- Contributed to UI/UX improvements and implemented responsive layouts for mobile and desktop platforms.

FEATURED PROJECTS

Cosmic FSM (Field Service Management) — React Native, Expo, Node.js, Express.js, MongoDB, JWT, Cloudinary

- Built a full-stack mobile field-service management app automating attendance tracking, project management, and reporting workflows for business operations.
- Implemented JWT authentication, role-based access control, and push notifications; integrated Cloudinary for media handling and deployed to production.

Chicken Marketplace — React, TypeScript, Node.js, PostgreSQL, Prisma ORM

- Engineered a full-stack marketplace application with REST APIs, JWT authentication, and a Prisma ORM-managed PostgreSQL database for product and order management.
- Built a responsive, type-safe frontend in React and TypeScript supporting secure browsing, listing, and transaction workflows.

Cosmic Inventory Management System — React.js, Node.js, Express.js, MySQL

- Developed a full-stack inventory management system with real-time stock tracking, CRUD operations, and reporting dashboards.
- Designed secure REST API endpoints and optimized database queries to support concurrent users and high-volume data processing.

Fitness Tracker Application — React Native, Node.js

- Built a cross-platform mobile fitness app with workout tracking, progress monitoring, and a personalized health dashboard.
- Implemented authentication and backend integration to sync workout data and deliver real-time progress insights.

EDUCATION

Diploma in Computer Engineering — Government Polytechnic Curchorem, Goa (2023–2025)
Higher Secondary School Certificate (PCMB) — Govt Higher Secondary School, Sanguem (2021–2023)

ACHIEVEMENTS

- Tech Expo 2025 (National Level Project Competition): Awarded Consolation Prize and ₹1,000 cash prize for an innovative IoT automation project.
- State Level Project Competition (SLPC 2025): Recognized for innovation and technical excellence in IoT systems development.
- Delivered 30+ client projects on time and within scope, maintaining a 95%+ client satisfaction rate.
